

FINAL - RPA 15 FY2025-2028

Transportation Improvements Program

Serving the following Iowa Counties:
Jefferson, Keokuk, Mahaska, Van Buren, and Wapello

By
Area 15 Regional Planning Commission,
224 East Second Street
Ottumwa, Iowa 52501

Prepared June 2024

This plan was prepared with funding from the U.S. Department of Transportation's Federal Highway Administration and Federal Transit Administration, and in part through local matching funds of the RPA member governments.

A RESOLUTION ADOPTING THE FY 2025-2028 TRANSPORTATION IMPROVEMENT PROGRAM AS THE OFFICIAL
IMPROVEMENT PLAN FOR THE RPA 15

WHEREAS, the Area 15 Regional Planning Commission did prepare a FY 2025-2028 Transportation Improvement Program which identifies the specific transportation improvements for the RPA 15; and

WHEREAS, it is a requirement of the Iowa Department of Transportation, pursuant to the Infrastructure Investment and Jobs Act (IIJA Act) of 2021 that all Regional Planning Affiliations prepare a transportation improvement program to serve as a guide for transportation improvements;

NOW, THEREFORE, BE IT RESOLVED that the RPA 15 adopts the Transportation Improvement Program for FY 2025-2028 as its official transportation improvements program.

Passed this 27th day of June, 2024.

Chairperson
RPA 15 Policy Board

Disclaimer

The RPA prepared this report with funding from the U.S. Department of Transportation's Federal Highway Administration and Federal Transit Administration, and in part through local matching funds of the RPA member governments. These contents are the responsibility of the RPA. The U.S. government and its agencies assume no liability for the contents of this report or for the use of its contents. The RPA approved this document on 6/27/2024. Please call (641) 684-6551 to obtain permission to use.

RPA 15 Policy Board

The RPA Policy Board was formed in 1994 after the passing of the ISTEA Act. By resolution of each participating county, a regional planning partnership was formed for the following counties in Iowa: Keokuk, Jefferson, Mahaska, Van Buren, and Wapello.

Purpose. The purpose of the Board is as follows:

1. To prepare and update an annual Transportation Improvement Program (TIP) for the region.
2. To serve as a forum to identify, discuss, study, and bring into focus transportation issues in the region.
3. To facilitate cooperative action proposals among member governments for specific projects or other interrelated developmental needs and for the adoption of common policies and plans with respect to common problems.
4. To foster, develop, and review policies, plans, and priorities for transportation planning development in the region.
5. To serve as a vehicle for the collection and exchange of information of interest to the member governments.
6. To maintain liaison with members, governmental units, and groups and organizations.
7. To cooperate with member governments whenever possible.

Representation: The full membership shall be ten (10) representatives. Representatives will be as follows:

- a) One (1) representative for each member County. The representative shall be a member of its governing body and approved by such governing body.
- b) One (1) representative for each urban area (population 5,000+). The representative shall be a member of its governing body and approved by such governing body.
- c) One (1) representative who represents the interests of the incorporated cities within each respective member county not containing an urban area. The representative shall be a member of a governing body within that particular county to be selected at-large by the County Board of Supervisors by a majority vote.

Membership

1. Doug Reinhert
2. Rick Johnson
3. Amal Eltalhir
4. Open
5. Jim Morlan
6. Lee Dimmit
7. Daryl Wood, Vice Chair
8. Steve Wanders
9. Dale House, Chair
10. Bryan Ziegler

Representation

- Fairfield (City Administrator)
- Ottumwa (Mayor)
- Oskaloosa (City Manager)
- City in Van Buren County
- Sigourney (Mayor)
- Jefferson County (Supervisor)
- Keokuk County (Supervisor)
- Mahaska County (Supervisor)
- Van Buren County (Supervisor)
- Wapello County (Supervisor)

RPA 15 Technical Advisory Committee

The RPA 15 TAC was formed in 1994 by the RPA 15 Policy Board. The purpose of this committee is to establish an application process, provide technical review and recommendations on project proposals, assist with planning activities, make formal recommendations to the Board, and other duties as assigned by the Board.

Representation. The TAC is comprised of 15 members including:

- (5) County Engineer (1 from each member county, selected by Board of Supervisors)
- (3) City Engineer/Public Works/Planner (1 from each urban area, selected by City Council)
- (1) Public Transit (1 from the Public Transit Authority selected by Transit Board)
- (5) Enhancement Representative (1 from each county, selected by Board of Supervisors)
- (1) Regional Representative (selected at-large by the Policy Board)

Membership

- 1. Jeff Skalberg, Chair
- 2. DeWayne Heintz
- 3. Andrew McGuire
- 4. Andrew McGuire
- 5. Ryne Thornburg
- 6. Melanie Carlson, Vice Chair
- 7. Sean Murphy
- 8. Phillip Burgmeier
- 9. Open
- 10. Shawn Morrissey
- 11. Chris Clingan
- 12. Kim Steele-Blair
- 13. Rick Tebbs
- 14. Ashley Utt
- 15. Jay Allison

Representation

- Wapello County Engineer
- Jefferson County Engineer
- Keokuk County Engineer
- Mahaska County Engineer
- Van Buren County Engineer
- Fairfield City Engineer
- Oskaloosa Engineering Tech
- Ottumwa Director of Public Works
- Keokuk County Trails
- Jefferson County Conservation
- Mahaska County Conservation
- Van Buren County Trails
- Wapello County Conservation
- Historic Hills Scenic Byway
- 10-15 Transit Administrator

RPA 15 Planning Staff

Staff from the Area 15 Regional Planning Commission provide technical assistance to the RPA on an annual basis. The RPC prepares an annual work program in coordination with the Technical Advisory Committee and Policy Board. Funding for the planning assistance is provided with the federal transportation funds through a contract between the RPC and Iowa DOT.

Staff

Chris Bowers, Executive Director

Chris Kukla, Transportation Director

Brandon Dicks, Regional Planner

Matt Naumann, Program Coordinator

DESCRIPTION OF THE TIP DEVELOPMENT PROCESS

General Process.

The TIP was developed following the Iowa DOT's "Guidelines for Development-Transportation Improvement Programs and the Iowa Statewide Transportation Improvement Program" and "Regional Transportation Project Selection: Requirements and Best Practices". The projects that are programmed into the TIP are separated into nine categories: STBG, STBG-HBP, SWAP-HBP, SWAP-STBG, NHPP, Transportation Alternatives, PRF, HSIP and Transit. Costs for each project are developed by the project sponsor using Year of Expenditure; meaning that inflation is included in project costs is based upon the year the project is programmed.

Surface Transportation Block Grant STBG and SWAP-STBG.

STBG Funds are allocated to the RPA by IDOT on an annual basis. The Iowa DOT also swaps STBG funds awarded to city road projects on a dollar-for-dollar basis, these funds are referred to as SWAP-STBG. Funds used for planning, transit capital investments, county road, and bridge projects will remain federal or STBG funds.

Funds are sub-allocated to all the counties and to the cities with populations over 5,000. There are also set asides for planning, public transit, and special projects. Small cities and DOT projects are funded through the special projects set aside. Projects may borrow ahead up to five years on a sub-allocation from the year a project is programmed if doing so does not exceed the available balance of the RPA in the year the project is programmed or a later year.

To be considered for funding, a project application must be submitted to the RPA. The application includes a project description, timeline, cost breakdown, project location and map, and self-scoring/rating criteria that looks at traffic, connectivity, federal functional classification, safety, and identification whether the project is in the RPA Long-Range Transportation Plan. Roads with higher functional classification, greater traffic, are more deteriorated, score/rate higher.

Applications are due the beginning of April and are reviewed by the RPA staff for eligibility first. Applications are then presented at a Technical Advisory Committee meeting where the applicant is asked to make a presentation on their project and the committee has a chance to ask questions. After all the presentations the committee discusses the applications and reaches a consensus on which projects to recommend for funding and the funding level. Applications are then presented to the Policy Board, which reviews the technical committee's and makes the decision whether to approve projects for funding. Projects approved by the Policy Board are then added to the Transportation Improvement Program, which is adopted in June.

Iowa's Transportation Alternatives Program (TAP).

Iowa's Transportation Alternative Program funds are allocated by IDOT to the RPA each year. Iowa's TAP funds are maintained as a regional pool of money that is available to cities and counties within the RPA via a competitive grant process.

Applications are due the first week of April. The application process for TAP funds uses a combination of scoring and discussion and consensus. The application used is the standard Iowa DOT application for Transportation Alternatives funds. After receiving the TAP applications, they are sent to Iowa DOT for review of eligibility and comment. Once comments have been received by the RPA staff they are presented to the Technical Advisory Committee by the applicant where the committee can ask questions. After the presentations, the committee scores the projects, scores are averaged together for each project and the average be 60 points or greater for the project to be considered for funding. The TAC then discusses the projects and makes recommendations for funding. This recommendation is presented to the Policy Board along with each project application and their scores. The Policy Board reviews the recommendations and projects and makes the funding decision on each project. Approved projects are included in the Transportation Improvement Program, which is adopted in June.

Bridge Projects.

County bridge projects funded with HBP will be programmed directly by the counties based upon their inclusion in the county's five-year plan and meeting fiscal constraint requirements. Federally funded bridge projects (HBP) are submitted to the RPC by each county based on inclusion in the county's five-year plan and fiscal constraint. Federally funded bridge projects are compiled into the Transportation Improvement Program that is reviewed by the TAC and adopted by the Policy Board in June.

Transit Projects.

Transit projects are programmed based on the Passenger Transportation Plan prepared each year by the RPC through consultation with public and private transit providers, and health and human service agencies. To be included in the TIP, projects must be recommended in the PTP, and the public transit agency must also prepare a Consolidated Grant Application. Transit projects compiled into the Transportation Improvement Program that is reviewed by the TAC and adopted by the Policy Board in June.

DESCRIPTION OF THE TIP REVISION PROCESS

A revision of the TIP is necessary when a change occurs to a federal aid or an STBG-SWAP project between the yearly TIP development cycles. Depending on the change required, the change is considered either an amendment or an administrative modification.

An amendment is considered a major change, and actions considered an amendment include the addition or deletion of a project, the change in federal aid or STBG-SWAP by more than 30% or increased by \$2 million or more, the change in the scope of work including type of work or project boundaries. Amendments to the TIP require public review and demonstration of fiscal constraint. Amendments are processed through a review by the TAC at a regular meeting and then a public hearing by the Policy Board at a regular meeting. A notice for a public hearing for an amendment will be published for a minimum of four days and a maximum of 20 days before the hearing.

An administrative modification is a minor change, and actions considered an administrative modification include the change in schedule of a project from one year to another in the 4-year TIP, a minor change in cost, a change in costs from one funding source to another. Administrative modifications do not require a public review. The RPA processes administrative modifications involving competitive funds (Special Projects and TAP) through a review by the TAC at a regular meeting and approval by the Policy Board at a regular meeting. Administrative modifications involving sub-allocated funds may be processed by staff without TAC review or Policy Board approval. The TAC and Policy Board are notified of the modification.

Revisions to request additional funds to an existing project are required to go through a full application cycle unless the exception is met. An exception will be granted for a project requesting to increase the awarded amount less than 30% or no greater than \$300,000, whichever is less, to use the shorter revision request form and not go through a full application cycle. Other revisions will continue to use the revision request form.

DESCRIPTION OF THE PUBLIC PARTICIPATION PROCESS

The goal of RPA 15's public participation process is to provide citizens of the five-county region with a means of contributing to the creation, implementation, and assessment of the operations and productions of Regional Planning Affiliation 15. This process allows city and county governments, as well as citizens, to voice their needs to the RPA. It also allows the local governments and citizens to determine priorities for the selection of federally funded transportation projects and to be involved in the long-range transportation planning process for the region. By having the governments and citizens involved in the planning and programming phases, the RPA ensures that projects meet the needs of the region and enhance the quality of life of the citizens who live within it.

All meetings of the RPA technical advisory committee and policy board are open to the public. TAC meetings are scheduled for the second Thursday of the month, and policy board meetings for the fourth Thursday, when there is business to be conducted. In addition, formal notification for a public hearing is required to inform citizens that draft documents are being presented to the policy board for review and adoption. Notice of public hearings follows the RPA 15 Public Participation Plan. For the Transportation Improvement Program, this requires that notice be provided 15 days prior to adoption of a TIP, or between four and twenty days for an amendment to an approved TIP. The notification provides citizens with information on the document or change being approved, how to review the document, date and time of the hearing, and methods of providing comments. Public hearings are also required prior to the adoption or amendment of the Long-range Transportation Plan (LRTP), Transportation Work Program (TPWP), as well as other plans that may be implemented by the RPA.

In addition to holding open TAC and policy board meetings, and public hearings prior to the adoption or amendment of planning documents, the RPA provides information to the public on the transportation planning process and specific projects through different communications media. This includes e-mail, newsletters, press releases, Facebook posts, and the website. An e-mail is the primary approach used to inform local governments, service providers, and interested organizations of application or comment periods, and meetings. Press releases and public notices are used to inform citizens of this as well as provide information on the completion or adoption of specific work elements. Facebook posts are another method of reaching out to citizens to provide information about comment periods or the completion of projects by the RPA. Newsletters are sent to each of the member cities and counties of the RPA reminding them of upcoming deadlines and highlighting important projects within the RPA. These forms of outreach may direct organizations/individuals to the website for more information where applications or planning documents are available.
